

Installation & Maintenance Instructions

Product: Adjustable cubicle Leg

Product Code: ACR-0900PA

Series: Cubinox

Material: AISI 304 Stainless Steel

Installation Instructions:

1. Adjust the leg height between 125 mm and 170 mm as needed.
2. Position the leg base on the floor.
3. Fix it using 3 stainless steel screws (not included).
4. Ensure the surface is clean and level before installation.
5. Check that the leg is vertically aligned and stable after mounting.
6. Do not overtighten the screws to avoid damaging the panel or surface.

Maintenance Instructions:

- Clean weekly with a soft, damp cloth.
- Do not use acidic, abrasive, or chlorine-based cleaning agents.
- In humid or outdoor areas, increase cleaning frequency and perform routine checks.
- If signs of corrosion appear, clean with stainless steel maintenance cream or contact your supplier.
